*Simon Laumann Jørgensen*

Democratic Inclusion, presentation related to the project Borders of Democracy

Followed by informal drinks and simple food at Christian's terrace if you have time/energy.

## About FLOW

Aalborg University has selected migration as a strategic research area. The university funds the project “Global flows of migrations and their impact on North European welfare states (FLOW)”, 2018 – 2020, with 1.2 million euros.

The FLOW team is constituted by an interdisciplinary group of political scientists, sociologists, geographers, historians and education scientists, coordinated by Professor Christian Albrekt Larsen. The FLOW project analyses migrant flows into Northern Europe, with a special emphasis on climate changes, patterns of socioeconomic and sociocultural integration and best practice within education and labour market policy.

## What we can contribute

The members of the FLOW project have special expertise on migration issues in the Nordic context, especially on the Danish context. The members have unique access to and experience with Danish register and survey data on migration issues. The members of the FLOW project embrace the interdisciplinary approach, which is a hallmark at Aalborg University.

## Contact

If interested in cooperation please contact the steering group:

Christian Albrekt Larsen, [albrekt@dps.aau.dk](mailto:albrekt@dps.aau.dk) (coordinator)
